

ITRI & NTHU Coordinated Graduate Program
(Scholarship & Internship)

■ **Program Introduction**

The ITRI & NTHU Coordinated Graduate Program offers selected students a monthly scholarship plus paid winter and summer internship opportunity at ITRI. As Taiwan's largest applied technology R&D institute, ITRI has played a key role in the development and success of Taiwan's high-tech industries. Under this program, students will align their thesis topic with ITRI's applied research programs and thus gain invaluable insight into the local high-tech industry.

■ **Duration of the Award**

Two years

■ **What ITRI Provides**

- During school year: Scholarship of NT\$10,000/month
- During summer/winter vacation: full-time paid internship at ITRI
 - Master's student: NT\$35~45K/month
 - PhD student: NT\$45~65K/month
- Airfare subsidy (to travel to Taiwan)

NOTE: Details of your offer will be confirmed if you are selected.

■ **Eligibility**

Applicants must meet all of the following criteria:

1. NTHU's Master/Ph.D. applicants graduate from IITs (Indian Institute of Technology)
2. Study Focus Areas including at least one of following:
 - Systems Software
 - 5G Communications
 - Machine Learning
 - Virtual, Augmented Reality
 - Deep Neural Network
 - Drones
 - Cyber Security
 - Robotics, Precision Manufacturing
 - Autonomous Vehicles, Electric Vehicles
 - 3DIC, LED, OLED, Optical Systems
 - 3D Printing, CNC, Machine Tools

■ How to apply

When applying for the degree study of National Tsing Hua University (NTHU), applicants just note down their interest in this program in the application form. Selection for this program is decided and approved by both NTHU and ITRI. If the applicant is selected, he/she will receive further notice.
